

# ZIELONY NIEDŹWIEDŹ

Good vodka is tasty.  
This is why we choose only those types  
of vodka that are made skilfully.

There is a whole variety of aromas in a  
good whisk(e)y. Their intensity is bal-  
anced by their inner beauty. This is why  
we reach out to „eau-de-vie” produced  
by distilleries working hard to make  
malt, peat and barrel to their best to the  
products.

Real whisk(e)y stirs up the spirit and  
probably this is why in the Middle Ages  
pure alcohol was called „spiritus”.  
Cheers!
